

Fast-turn, high-margin graphics like a pro

The EFI™ Pro 16h production-level LED inkjet printer offers growing print professionals a better way to produce fast-turn, high-margin wide-format graphics.

Features and benefits:

- Hybrid inkjet platform prints flexible and rigid substrates up to 165 cm wide and 5.08 cm thick
- Powerful LED technology for lower operating cost, a wider range of printable substrates and multiple environmental benefits
- Four colours plus white ink printing and single-pass, multilayer printing for greater profit opportunity
- Up to 1200 dpi and near photographic images, saturated colours, and smooth gradations with true 8-level, variable-drop greyscale print capability
- Production quality printing at 44 m²/hr for faster job turns
- EFI Fiery® XF RIP ships with printer, and features a RIP and print on demand function or the ability to print pre-ripped files at the printer interface

Specifications

Print modes and speeds:

- Ultra Quality Mode 5.6 m²/hr
- High Quality Mode 11 m²/hr
- POP Quality 16.5 m²/hr
- Production Mode 44 m²/hr
- Distant View/Outdoor Mode 53 m²/hr
- Express Mode 90.7 m²/hr
- White printing, one-half CMYK speeds

Media/Handling:

- Handles flexible and rigid substrates up to 165 cm wide and 5.08 cm thick
- Image width of 162.6 cm full-bleed printing
- Vacuum belt drive system with variable control
- Maximum rigid and roll media weight of 45.4 kg
- Maximum roll diameter of 22.9 cm
- Modular table design for scalable rigid printing depth

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalised documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity.
